Professional Summary

Full Stack Developer specializing in building responsive, database-driven web applications using JavaScript, React, Next.js, Node.js, Express.js, and MongoDB. Experienced in developing RESTful APIs, authentication systems, CRUD workflows, reusable UI components, and full-stack application features. Familiar with modern development practices, Git-based workflows, API integration, and deploying web applications. Focused on writing maintainable code and building practical products with clean user interfaces and reliable backend functionality.

Technical Skills

Languages: JavaScript, HTML5, CSS3
Frontend: React, Next.js, Tailwind CSS, shadcn/ui, Responsive Web Design
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Middleware, API Integration
Database: MongoDB, Mongoose, CRUD Operations, Data Modeling
Tools & Platforms: Git, GitHub, Vercel
Development Practices: Component-Based Architecture, Reusable Components, Error Handling, Environment Configuration, Version Control, CI/CD with GitHub Actions

Projects

Hive — Social Media Application

- Developed a full-stack social media application with user authentication and core social networking functionality.
- Implemented features for creating posts, liking content, commenting, and browsing a feed.
- Built frontend components and connected them with backend APIs to support application workflows.
- Integrated database operations to manage user-generated content and related application data.
- Structured the application around reusable components and separate frontend and backend responsibilities.

InkSpace — Blogging Platform

- Developed a blogging platform that allows users to create, manage, and browse blog posts.
- Implemented API-driven functionality to connect the user interface with backend operations and persistent data.
- Used the JavaScript full-stack ecosystem to handle application logic and database interactions.
- Focused on creating a clear content-browsing experience and maintainable application structure.
- Worked on improving the platform's usability, performance, and search-engine discoverability.

Experience

Frontend Developer Intern — InLighnX
Jul 2025 – Sep 2025

- Completed frontend development tasks as part of a remote internship.
- Worked on implementing and refining user interface features based on assigned requirements.
- Practiced translating task requirements into functional frontend components.
- Gained practical experience working through structured development tasks in a remote environment.

Education

Lovely Professional University
Bachelor of Technology (B.Tech.) in Computer Science and Engineering | 2020 – 2024
